# Removing Rust from Reeds

by Shirley Wilson, Newsletter Editor, Richmond Weavers Guild,  
Newsletter Volume 35, No. 6, February, 2005

If you need to clean rust from reeds that have been setting around for a while, try Naval Jelly Rust Dissolver, available at your local home improvement center. A \$5.00 can, a pair of plastic gloves, and an afternoon cleaned seven reeds (with a bit left over). Tough spots might need a second application. After

cleaning and allowing to dry, I sprayed the reeds with some clear acrylic finish. The final step was encasing the edges in duct tape.

This was much faster than the last ones we cleaned where Norm and I spent two days using fine steel wool on about the same number of reeds.

Lots of information about yarn, books and videos - some which have been difficult to find. Many of you new weavers have wanted to know where to get yarn and this is an excellent source.
